Deemed to be University U/s 3 of the UGC, Act, 1956, Tumkur, Karnataka)

On  
Thursday, 21<sup>st</sup> NOVEMBER 2020

## **REPORT OF CME CONDUCTED REGARDING WORLD DIABETES DAY**

World Diabetes Day is observed every year on November 14. It aims to promote global awareness and how can people live the way they want while managing diabetes in an efficient way.

World Diabetes Day (WDD) was first created 1991 by International Diabetes Federation and was later recognised by United Nations in 2006. November 14 is an important date as it marks the birthday of Sir Frederick Banting, who discovered insulin along with Charles Best in 1922.

For World Diabetes Day 2020, the theme is 'The Nurse and Diabetes'. This will also shed light on the coronavirus pandemic which led to long working hours for many healthcare professionals, especially nurses. Nurses also play a huge part in helping people with diabetes as they account for over half of the global health workforce.

The department of General Medicine, SSMC, Tumkur in association with Academic and Scientific Committee celebrated World Diabetes Day on 21-11-2020

The topics discussed were:

1. Introduction to observation on World Diabetes Day by Dr Nataraj.
2. Classification of Diabetes Mellitus by Dr Vinay.
3. Diabetic Peripheral Neuropathy by Dr Murthy.
4. Diabetic Nephropathy by Dr Sanjay.
5. Treatment of Diabetes Mellitus by Dr Siddeshwara Swamy.
6. Cardiovascular manifestations of DM by Kardiac frontida team

CME was honoured by chair person Dr Sharath Kumar D Shah. It was well attended by around 90 postgraduates, medical students and staff , from various departments SSMC .

HbA1c levels were checked for 30 participants ,on this World Diabetes Day. Techniques of Insulin administration was demonstrated.
